## CLEANSING FUNCTIONS

SCAN CODE  
PLAY VIDEO

## CLEANSING FUNCTIONS

WITH THE TOUCH OF A BUTTON, A WAND EXTENDS FROM UNDER THE SEAT FOR SOOTHING WARM-WATER CLEANSING.

### How WASHLET® works

**AIR-IN WONDER-WAVE®** technology is the precise, pleasant, air-rich stream that keeps you clean. As water is fired at different speeds, small droplets collide with larger ones, combining and expanding as the droplets fill with more air. The injection of air enlarges water droplets by approximately 30%.

### Select the type of cleansing you desire each time.

#### REAR SPRAY

The rear spray is designed to clean the rear intimate area. It features pleasant, yet strong water pressure to target this specific area.

#### REAR SOFT SPRAY

The rear soft spray has a larger radius to cover more area. Lower water pressure makes for a soft, comfortable spray.

#### FRONT SPRAY

The front spray consists of large, soft drops for comfortable intimate cleansing – for a clean, fresh feeling.

#### WIDE FRONT SPRAY

The wide soft spray has a larger radius to cover more area. Lower water pressure makes for a soft, comfortable spray.
